I.T. Professional looking to specialize in the field of Cybersecurity and constantly expanding my skill set. Having something new to experience would be an amazing career. Through a created Home Lab, I am honing my skills in new security techniques and using that knowledge to harden network security. My ideal career would be working with a collaborative team solving complex problems.

Cybersecurity Experience:

Full documentation and more personal projects on brendanzeman.com

Created An Active Directory Domain Controller From Scratch With A Thousand Users:
- Performed Active Directory Administration, creating it from scratch on a VM using a clean image of Windows Server 2019. Configured DHCP, NAT, A Domain, and added a Client VM to the Domain.

Utilized Azure Sentinel (SIEM) To Plot Source of Cyber Attacks On A Vulnerable Cloud System:
- Using Sentinel, I was able to aggregate failed windows login requests on an exposed VM, extract the IP, and use it to plot the geographical origin of all attacks using Azure Log Analytics Workspace.

Installed Nessus Essentials In Home Lab To Perform Credentialed Vulnerability Scans:
- Installed and configured Nessus Essentials to run Vulnerability Scans on Virtual Machines, allowing me to identify, formulate a solution, and resolve issues discovered on vulnerable systems.

I.T. Professional Experience

Neurotronics Inc.	Apr 2021-Present

IT Support
- Answered calls and maintained detailed call center records through a ticketing system of all interactions with systems and networks I supported globally.
- Remoted into hundreds of different networks to troubleshoot client side system issues, medical hardware issues, network connectivity issues, Windows Domain permission issues, basic Windows Registry issues, and SQL Database issues.

Certifications & Accomplishments

CompTIA	A+	Sep 2022
	Security+	Nov 2022
TryHackMe	Top 5% of Users	Jan 2023
My Profile	Jr Penetration Tester	Jan 2023
Boy Scouts	Eagle Scout	May 2016

*Note: Only 2% of Scouts make it to the Rank of Eagle Scout

Education

Santa Fe College	Aug 2016-Dec 2019

- Associate of Arts in Computer Science

Customer Service Experience

Publix Inc.	Mar 2014-Apr 2021

- Started as front-end help and quickly worked up to Cashier, and ultimately Supervisor where I lead a team of 15-20 employees to accomplish all tasks to open and close the business. My specific responsibilities included scheduling staff, resolving customer/staff conflicts, and balancing the daily cash/check/credit intake.
